MANY AMENDMENTS TO BILL.
(A. P. DAY REPORT.)
WASHINGTON, March 29.—Senator
Forsker today introduced the following amendment to the Puerto Rican

Bill:
"That on and after the date when
this act shall take effect merchandise
previously imported from Puerto Rico
into the United States, on which no
entry has been made, and goods, wares
and merchandise previously entered
without payment of duty, and under and merchandise previously entered without payment of duty, and under bond for warehousing, transportation, or any other purpose, for which no permit of delivery to the importer or his agent has been issued, shall be subject to the duties imposed by this act, and to no other duty, upon the entry or withdrawal thereof; provided that when duties are based upon the weight of merchandise deposited in any public orprivate bonded warehouse, said duties shall be levied and collected upon the weight of such merchandise at the time of its entry."

Senator Pettus also introduced several amendments to the Puerto Rico Bill, as follows:

"Prohibiting the proposed Puerto Rican legislature from enacting any law in condict with the Constitution of the United States and also the laws of the United States and also the laws of the United States."

"Restoring the original provision of the bill for a duty of 15 per cent. of the Dingley law on goods going both ways."

NOW A QUESTION OF PRICE.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, March 23.—[Exclusive Dispatch.] The only hitch in the negotiations looking to the purchase by the United States of the Danish West Indies from Denmark concerns the price to be paid for the new territory. The bill introduced by Representative Cardner of New Jersey, providing for the payment of \$4,000,000 for the islands is believed to have caused the Danish government to raise the price above the \$3,000,000 which this government is willing to pay. Efforts are being made to compromise the matter, however, and negotiations are now being conducted between the Danish crown and the American Minister at Copenhagen.

WARHINGTON, March 29.—Mr. Beveridge closed his speech, saying:

"Mr. President, the great movement on which the American people have embarked is a movement of conscience as well as of power; of civilization as well as of power; of civilization as well as of commerce. South African Winter Will Be When the Army Moves Again—I Forces Have Been Equipped As and a Correspondent Says Fift Thousand Foreign Troops B Thousand 1 Been Added.

LONDON, March B.—[By Atlant Cable.] Conjecture as to Lord Roll erts's advance from Bloemfontein the topic of the day, and is likely continue so, if the British commande in-chief in South Africa conceals he movements as carefully as he has do

fontein. It is pointed out that there then will be over a week's hard marching before Kroonstadt is reached, though there seems no certainty that Kroonstadt will entirely occupy Lord Roberts's attention.

The advance, when it does occur, will probably be made by parallel columns along a broad front. The movements of the cavalry force and part of the infantry toward Glen can scarcely be construed as an actual advance, although they undoubtedly point to the imminence of such a step. But only a small part of Gen. Gatacre's forces have yet arrived at Bloemfontein, and until that movement is completed, it is not likely Lord Roberts will start for Pretoria.

The latest news from Bloemfontein contained in a dispatch published in the second edition of the Times, and dated Wednesday. March 23, again dwells upon the necessity for not making a premature advance. This correspondent, who on several occasions seemed to be chosen as the mouthpiec of Lord Roberts, cables: "It should be clearly understood that the present halt in the vicinity of Bloemfontein is absolutely necessary as a military precaution. It should be borne in mind

cently occupied hostile country, and that the recent successes necossitated a great expenditure of horse power. Here, and in Natal, we shall move on the commencement of the South African winter, and must be prepared to face the effects of the first frest upon such animals as may be affected with horse-sickness. It would be suicidal to push troops forward until they are equipped to meet the exposure of winter. Horses, clothing and food we must have.

The correspondent adds that the Boer forces have been resquipped, and he says he is fully convinced that 15,000 foreign troops have been landed to aid the republics.

From this, the inference might be drawn that the London critics have been premature in prophecying an immediate advance, as at Kimberley and Paardeberg. The best based conjecture is well nigh worthless as to when Lord Roberts contemplates moving.

DEMAND FOR GOODS.

CHIEFLY FOR FOOD PRODUCTS. CHIEFLY FOR FOOD PRODUCTS.

[A. P. EARLY A.M. REFORT:

NEW YORK, March 29.—Not in any
line of manufactured goods has the demand from South Africa been improved, but on the contrary merchants
have received advices to curtail shipments of hardware and some lines of
manufactured iron until cable orders
are sent. The business which is on the
increase is that of provisions and food

products.

The shipments are not only requested to be sent direct from here, but also from any port where the early dispatch of vessels is available. The British transport Hesperides is loading 48,000 bales of hay and 100,000 bushels of oats for the use of the British army in South Africa. The steamship Clan Robertson will arrive shortly to load 73,000 bales of hay and 150,000 bushels of oats for the same purpose. The destination of both vessels will be cape Town.

INDIANAPOLIS, March 23.—A special from Washington to an afternoon paper today says that Gen. Harrison has expressed some pretty blunt views on the Boer question, and has written a friendly, personal letter to Secretary Hay on the subject. Either in this letter, or in some communication, he is accredited with having said that he hoped the Boers would find some place on the earth where they would have a right to live, unmolested by the British.

Gen. Harrison was asked about the matter tonight, and said: "I have nothing to say upon the matter."

At the conclusion of the testimony in the case between the jobbers of the Middle West and the Pacific Coast, which occupied the attention of the commission during nearly the entire morning session yeaterday. Chairman Clements announced that the next case of the calendar was that of the fruit companies against the railroads. The attorneys then announced their appearance as follows: Clinton N. Sterry, Esq., for the Santa Fe systems; W. F. Herrin, Esq., and Henry J. Stevens. Esq., for the Santa Fe systems; W. F. Herrin, Esq., and G. R. Lovett, Esq., for the Southern Pacific; W. J. Hunsaker, Esq., and Graves, O'Melveney & Shankland for the citrus fruit growers.

As soon as ophortunity offered, Attorney Sterry, on behalf of the Santa Fe railroad, made a motion to strike out the entire complaint and stated, that owing to the large interests involved, he desired to be heard at length 'n support of the motion.

"We are prepared to go ahead with the case at this time if you so desire," said the attorney, "but in the main we contend that there is nothing in the complaint which is subject to your involved, he desired to be heard at length 'n support of the motion.

The members of the commission were agreeable to this plan and accordingly an adjournment was taken until 1:30 e'clock.

When the commission assembled in the afternoon the courtroom was growded. In addition to a large number of prominent attorneys retained in the case, many citrus-fruit growers and shippers were present to listen to the proceedings. E. T. Earls of the Earl Fruit Company, and A. H. Naftzger, president of the Southern California Pruit Exchange, were on hand, interested and critical observers. They were essated inside the 'our railing together with many equally interested to require commerce," it would be an interested and critical observers. They were seated inside the 'our railing together with many equally interested, but less prominent representatives of the factions involved in the private car-line fight. The lobby was well filled during the afternoon with lawyers and business men.

Promptly at the beginning of the session Mr. Sterry began his argument, which lasted for one hour and fifty minutes. In his remarks to the commission, the afternoon with lawyers and business men.

reason was not at once apparent.

Attorney Pilisbury, for the Pacific Coast Jobbers' Association, began by submitting, as an exhibit, a prospectus of the Mexican Coast steamship line, recently established, that piles between 8an Diego and points in Mexico. He stated that he filed the exhibit of a steamship line that would eventually

whatever to do.

"As far as the routing question is concerned, the railroad gives the right to the shipper of choosing between the through rate and 'locals.' If a man has oranges which he wishes to ship to Chicago, and he prefers to do so by way of Kanass City, St. Joseph or whatever point he may name, he has the right, only the companies assert, that if he is given the right to route his fruit, he should pay the 'locals,' or the rate from point to point. If he wished the through freight rate then he must ship according to the limitations on that rate, one of which may be that the railroad route the fruit to suit its own convenience."

THE RAILWAY POOL.

Regarding the railway pool which is San Diego and points in Mexico. He stated that he filed the exhibit of a steamship line that would eventually ply between the Southern California coast and New York by wav of Tehauntepec in Mexico. The evident intention of the attorney was to enforce upon the commission the probability that the Facific Coast jobbers would be compelled to resort to water shipments, if the differential was lowered, and that the margin of profit was so low, at the present time, that enterprising steamship companies were arranging to transport some of the trade. There was a rustle of surprise in the room when the attorneys for the St. Louis and Chicago jobbing interests placed J. R. Newberry, a local grocery merchant, on the stand to testify in their behalf. Attorney Will A. Harris conducted the direct examination. The examination of Mr. Newberry had not progressed far before the cause for the unusual hilarity on the part of the St. Louis and Chicago menbecome apparent. Mr. sewberry's testimony was of the sensational order, and was quite damaging to the contentions of the Pacific Coast Jobbers' Association. The attorneys for the defense were nonplussed at this surprise sprung on them by the St. Louis jobbers, and it was some time before they ceased to sit and stare in blank amazement at the witness.

Mr. Newberry testified that he had been in the grocery business in Los Angeles for six years, and that previously he had conducted a grocery store in Riverside and in Coiton. He had formerly been a retailer, but at the present time he also did some jobbing business. The effect of the change in freight rates had been to compel him to purchase in curroad lots. The retailer, he believed, was affected disagirously by the present differential. The change in rates had meant a raise in prices from the jobbers — from 15 to 15 per cent. Sardines that formerly sold for 10 cents a tin, now retailed at 15 cents.

The present assorted carlond rates, he testified, presented many difficulties.

sold for 10 cents a tin, now retailed at 15 cents.

The present assorted carload rates, he testified, presented many difficulties, and were from 5 to 25 cents higher, as shown by the trans-continental sheet. The raise in prices during the last two years was due to the increase in carload rates, and in the differential. About 25 per cent. of his goods were to brought to the city in less than carload lots, as the retailers were unable to make up mixed carload lots from the schedule.

Interest in the courtroom was on the qui vive by this time, and even the commissioners showed an unusual interest. The faces of the Los Angeles wholesale merchants were a study. Commissioner Clements took advantage of the first opportunity to examine the witness on his own account and even ex-Gov. Fifer, apparently of a retiring disposition, for the first time since the amount. **

pelled to pay \$1.26 freight per hundred pounds, in less than carload lots, whereas, they can be brought here by the carload for \$6 cents. This worked a hardship on me, and is a practical illustration of the operation of the differential rate."

In concluding his story, Mr. Hill exhibited a price list of the Pacific Coast Jobbers' Association, dated Septemoes 11, 1899, which was introduced in evidence. His testimony concluded the case as far as this city is concerned. The final hearing will be held in Portland some time next month.

HEARING IN THE APPLICATION
FOR DISSOLUTION.
(A.P. DAY REPORT.)

NEW YORK, March 29.—A further hearing in the case before Referee Cantine, in the application of Harper & Brcs. for a voluntary dissolution of their business was held today. Henry 8. Harper, one of the directors of the company said treasurer of the corporation, said in the last year of operation under the company there had been a profit above operating expenses but not enough to pay interest on debts. The company had to continue to spend money for additional machinery, etc., and the debts increased every day. The assets of the company, he said, were something over \$8,000,000 in electrotype plates, machinery, etc. He did not believe that anything like this amount could be got for them in any open sale, much of the value being in "good will," and depending upon the sale of the plants in their entirety.

Ralph P. Prime appeared for a number of authors. He said that none of them were antagonistic to the Harper interests; they simply came to learn what would become of royalty and other contracts between authors and the Harper concern. He said that he and those whom he represented would oppose the assumption by any new company of such contracts.

George L. Rives, who appeared for the firm, assured Mr. Prime that the Reorganization Committee would pay all debts to authors in full. He added: "It is the Intention of the company to keep the Harpers, the same gentlemen who have been conducting the business heretofore, in the concern atill, and as far as the committee can do it, the business will go on in the old way."

This is the record coast run hung up by the Atchison, Topeka and Ranta Fé tonight when the "Peacock Special" pulled into the Polk-street depot at 9:56 o'clock. An hour after the arrival of the train, S. R. Peacock, vice-president of the Carnegie Steel and Iron Company, boarded the Pennsylvania train eleven hours earlier than he expected. He will arrive in Pittaburgh at 6:20 o'clock tomorrow evening, having made the run from Los Angeles in 75 hrs. 35 min., including 1 hr. 34 min. delay in Chicago. The trip from the coast here cost Mr. Peacock \$4000, and the expense was incurred in a successful attempt to reach Pittsburgh in time to attend an important meeting of the directors of the company hastily called for Saturday morning.

For the entire distance an average speed of nearly forty miles was maintained. On several long stages of the run the speed approached one mile a minute. The star feature of the speed in Saturday morning.

WASHINGTON. March 29.—(Exclusive Dispatch.) Originally there were three Pacific Coast candidates for appointment by the President upon the new commission for the investigation of openings for the development of American commerce with the Orient. They were John Barrett, former Minister to Slam; Ell T. Sheppard of San Francisco and J. W. Taylor of San Prancisco and J. W. Taylor of San Prancisco and J. W. Taylor of San Prancisco of these three, Mr. Barrett, on account of his great familiarity with the oriental trade, appeared to be the most promising candidate. However, both Mr. Taylor and Mr. Sheppard had some good backing. Today Mr. Taylor withdrew from the fight, leaving only Mr. Barret and Mr. Sheppard now in the field. Sheppard has the backing of two members from California, while Mr. Barrett has the balance of the California delegation, and has also behind in the Oregon and part of the Washington delegation, and has also behind the Oregon and part of the Washington delegation. WASHINGTON, March 29.—The Mexican Ambassador is authority for the following statement:

"Certain rumors having come to the notice of the Mexican government which have been current in this country with regard to the existence of the bubonic plague on the island of Cosumel, belonging to the State of Yucatan, it has made suitable inquiry with a view to ascertaining whether those rumors have any foundation, and has learned positively that there has not been a single case of buhonic plague either at Cosumel or at any other place in the republic.

"Notwithstanding this fact, however, an order has been issued, in view of the advices received to the effect that cases of that plague have occurred in the Argentine Republic, to close the port of Cosumel to South American ports.

States to Turkey has averaged \$30 a year.

Mr. Griscom, who of his own volition lodged a protest for the State Department, has not yet been informed of the prohibition of the Turkish government. It may be stated, however, that his action is thoroughly commended by the officials and he will be supported to the utmost in his protest. While it cannot be stated officially, no doubt is entertained here that the action of the Turkish government is directly attributable to the secret influence of some continental powers, whose position in resistance to the demands of the United States for the admission of American meat products might be strengthened could they point to similar exclusive action by other powers based on sanitary considerations.

NEW YORK, March 29.—A specia to the Journal of Commerce from Washington says that the Hay-Paunce fote treaty, modifying the Clayton Bulwer treaty so as to give the Unite Bulwer treaty so as to give the United States the right to construct the Nicaragua Canal, will probably be taken up and ratified within a short time. Senator Davis of Minneapolis, chalrman of the Committee on Fereign Relations, believes that ratification can be accomplished, and that it should be done without delay. As matters now stand it will probably be necessary for the friends of the treaty to accept the amendment proposed by Senator Davis and the other Republican members of the Committee on Foreign Relations.

MAKING FINAL PLANS.

(A. P. DAY REPORT.)

WASHINGTON, March '29.—The Philippine commission met today and agreed upon the personnel of the staff that is to accompany the commission to Manila. They agreed on certain outlines which they will follow in their work in the Philippines. These will be submitted to the Secretary of Warthis afternoon.

work in the Philippines. These will be submitted to the Secretary of War this afternoon.

By appointment the commissioners waited on Secretary Root about 3 o'clock this afternoon, and they spent three hours behind closed doors in earnest conference.

At the conclusion of the conference the Secretary said that the discussion has covered the probable scope of the work of the commission for the next two years. So far he had not been able to present the commissioners written instructions, and what passed today was rather preparatory to the reception of those instructions. It was not the intention at this time to make the instructions public. But it might be stated in general terms, the Secretary said, that the new commission would have much broader powers in dealing with the problems arising in the Philippines than had its predecessor.

The primary purpose was the establishment of local civil government throughout the island. In the selection of the civil officers, the commission would have a free hand. When asked whether the civil authorities would commate the military, the Secretary contents himself with the reply that

as he saw it, no question was likely to arise on that point; there would be no chance for friction.

The commission will meet again to-morrow and will continue the conference with Secretary Root in the afternoon. That will be the last meeting of the full commission in Washington before the departure for Manila. The members will dine with the President at the White House tomorrow evening.

IDAHO POLICY UPHELD. PETITION TO WAR SECRETARY

[A. P. DAY REPORT.] WASHINGTON, March 28.—Th

WASHINGTON, March 28.—The Coeur d'Alene investigation opened today with no outward evidence of the exciting events of yesterday, although there was considerable good-natured raillery among members as to when the "first round" would be called. Gov. Steumenberg was again on the stand with Representative Lents conducting the cross-examination.

The evidence was on unimportant details until Gov. Steumenberg was questioned as to a recent petition from the Coeur d'Alene district, asking the secretary of War to retain Federal troops there. This petition has not yet been presented to the Federal authorities and the committee went into executive session to determine what to do with the document.

The committee decided in executive session to file the petition from the Coeur d'Alenes with the Secretary of War and in the mean time it will not be made public. It is understood, however, that it is an extensive document, bearing about 1500 names, and states in substance that white people at a distance may regard the policy adopted and consider it necessary to overcome the lawressness and disorder, which it is stated had existed for some time. It requests the Secretary of War to continue the guard of troop in the Coeur d'Alene district.

Gov. Steunenberg took occasion to deny a statement published during the present inquiry, to the effect that in October last he wrote to Representative Dick of the Republican National Executive Committee, assuming complete responsibility for the conditions in Idaho, and relieving the Federal authorities from all connection with the affair.

Mr. Lents inquired as to whether there ever had been any correspondence

thorities from all connection with the affair.

Mr. Lents inquired as to whether there ever had been any correspondence with Sentor Hanna or Chairman Babcock of the Republican Congressional Committee and Gov. Steunenberg made specific denials.

Gov. Steunenberg's examination was resumed at the open session, developing little additional and at the noon hour, the committee adjourned until tomorrow.

[BRAZIL] NO REVOLUTION IN TERRITORY IN DISPUTE

PLAIN STATEMENT OF FEELING CONCERNING ACRE.

Dr. Correa Says the Brazilian-Bolivian Commission Will Settle the Question Without a Gun Being Fired. Payment of Duties to Foreigners in Their Own Country is What the Brazilians Object To.

IA. P. EARLY A.M. REPORT.I [A. P. EARLY A.M. REPORT.]

RIO DE JANEIRO, March 4.—[Associated Press Correspondence. Wired from Chicago, March 29.] Dr. Inocencio Serzedello Correa, deputy from the State of Para, and formerly a Minister, published recently the following article, which will show the feeling of the greater part of the Brazilians of the northern States of Brazil in regard to the vast region of the Upper Amason, at present under the rule of Col. Braga and others, who deposed the President of the republic of Acre:

"There has never been any revolution against the Brazilian authorities in Acre. The population of almost the whole of that region, composed of about 20,000 Brazilians, demand guarantees for their property, and the payment of such duties to the Brazilian-government as they were always accustomed to pay. The mixed Brazilian-Bolivian commission will meet every facility and aid in carrying out the survey and making plants of the Brazilian naval force will be met with festivals, which are already prepared, and not a gum will be fired. You need have no fear that Acre will prove to be another Canudor. The laboring people have not practiced a single act of violence, and all the news of combat and deaths so plentifully published at Rio de Janerio and here also, are unfounded.

"All the Braxilian merchants and laborers trust that the Braxilian government will not force them to pay, but they affirm should the government send orders to the sunboats and forces under Baptisto Franco, they will not resist while the vessels are there, but when the waters recede, obliging the gunboats to come down, they will again throw off all Bolivian jurisdiction.

"My firm opinion is that the Braxilian government should insist on the

"My firm opinion is that the Brazillan government should insist on the
statu quo anterior to the protocol, and
that all should be done at once to resolve the question of the true frontier,
as Bolivia clearly has no means of
maintaining her jurisdiction. It would
be strange, indeed, for our government,
in a territory in litigation, occupied by
Brazilains, to send forces to compel our
people to pay duties to Bolivia. I have
been with Barbosa Seite, Vice-Governor

BISHOP POTTER REPORTS ON HIS OBSERVATIONS.

Says All the Orders Except the Jesuits Have Robbed the Islanders in an Outrageous Fashion—Com-mander Very Recalled Because of

Troubles on the Castine. NEW YORK March 28.—A partial report of the condition of afairs as found in the Philippines by Bishop Pottes, addressed to the joint commission on the responsibilities of the Protestant Episcopal Church, has been made public. The religious situation in the Philippines is such as was to be expected in a colony of Spain. She has stamped her ecclesiastical traditions—narrow, intolerant and often corrupting—wherever she has gone, and she has gone almost everywhere among all the various islands of the archipelaso, great and small. Worst of all, her religious orders, except perhaps the Jesuits, have robbed the people, wrung from them their lands and taxed the administration of the sacraments and ordinances of religion with a scale of exactions and impositions at once scandalous and outrageous.

"If we are to retain these islands, and the undersigned are constrained to own, however they may differ from any of their associates as to the wisdom of originally entering upon them, that no other course seems for the present open to the United States, these wrongs and the righting of them lie at the foundation of the whole Philippine problem. We must do justly in the Philippines or God will have no uze for us and our presence there will inevitably redound to our national dishonor." [A. P. EARLY A.M. CHICO, March 29.—Edgar Hobson, aged 14, and Homer Hickman, aged 13, were today ordered committed to the State asylum at Napa. Both are violated to the state asylum at Napa.

Arrest of a State Agent.

University Extends Its Scope.

BERKELEY, March 21.—The University of California will extend its scope over the entire coast by accrediting high schools outside of the State, including those in the States of Washington, Oregon and Nevada. This is the most important move that has been proposed since the plans for the new university were made and it indicates that the University of California will become a Pacific Coast institution and not a State institution alone.

Lodge not a Lawful Corporation, Ledge not a Lawful Corporation.

SAN FRANCISCO, March 29.—The
Supreme Court has decided that Golden
Gate Lodge, No. 6, Benevolent and Protective Order of Elks, is not a lawful
corporation. The contention that the
lodge had no corporate standing was
based on a section of the Civil Code,
which declares that articles of incorporation must be subscribed to by five or
more persons, which was not done in
this case.

SANTA CRUZ, March 29.—A committee arrived here today to select a place for the encampment of the North Central California Veterans' Association. They were offered grounds, fuelight, and water gratis. From here the committee went to Pacific Grove, which will also make an offer. About five hundred veterans will be in camp during the summer.

Reinsurance of Vessels. SAN PRANCISCO, March 29.—Reinsurance has been posted on the French bark Sainte Anne, bound from here to Cork, and the Hawaiian ship Euterpe, from Fort Townsend for Freemantic. Thirty per cent is offered on the former and 35 per cent. on the latter yeasel.

Men Who Work Suffer.

VANCOUVER (B. C..) March 29.— The strike of the Longshoremen's Union against the Facific Coast Steam-ship Company culminated today in an attack upon five men, who had been loading freight on the steamer Walla Walla. All five were severely beaten. Four arrests were made.

Thought to Be Lone Robber.

SAN JOSE, March 29.—Police Officer P. A.: Gillan of San Francisco today, while on a trip to Mount Hamilton, arrested a tramp who gave the name of Horace Woods. He is believed to be the lone highwayman who held up the Calstons stary in Napa several weeks.

Manager 4. B. Hill Dead.

STOCKTON, March 29.—A. B. Hill, manager of the Sperry Flour Mills at Stockton, for the past few years, died this evening at his residence, in this city, after an illness of several weeks from valvular disease of the heart. Hill was one of the best-known mill men on the Coast.

Work on Coast Division SAN FRANCISCO, March 29.—Collis P. Huntington thinks that the coast division of the Southern Pacific will be ready for the running of trains by September 1. Thirty miles of track have yet to be laid.

WHERE FLAXSEED GROWS. The production of linseed, or flaxseed, has peen of increasing importance, says the Oil, Paint and Drug Reporter, and even in countries which formerly cultivated the plant for its fiber alone a change has been going on, the planters allowing the plant to mature in seasons when the price of the fiber is abnormally low knowing that the seed can be disposed of at a fair price. In this way the production of seed has grown, where formerly only enough was produced for

of this amount. Russia took the lead in 1998 with a crop of 28.57,500 bushels, followed by the United States with 18.-500,000 bushels. British India with 17.-525,000 bushels, and Argentina with 9.-500,000 bushels, these being the prin-

The Committee on Resolutions gave its report, opposing the proposed an-nexation to California school laws. Harr Wagner lectured in the evening at Y.M.C.A. Hall on "Uncle Sam, Jr." HENRY MAGEE CAPTURED. HENRY MAGRE CAPTURED.

Sheriff Coburn received a telegram today from the Sheriff of Kern county, at Bakersfield, saying that Henry Magee, who shot and killed Alberto Ortega at Rincon in this county in 1894, was in that city and could be jailed if wanted. Sheriff Coburn ordered Magee's arrest. Magee shot and killed to Lower California. He was pursued to Lower California. He was pursued by Sheriff Swops at the time, but made good his escape. The pursuit of Magee cost the county several hundred dollars. The evidence against Magee is conclusive and his conviction is almost assured, as many of the witnesses are still easy to get.

NKNOWN MAN HANGS HIMSELF COVINA. March 29.—[Regular Corre-pondence.] Early this morning L. A. shoemaker, a San Dimas rancher reshoemaker, a San Dimas rancher re-siding on the main road between Co-vina and Pomona, discovered an un-known man hanging from the limb of a live oak tree 200 yards northwest of his residence. Constable Mehnert of Covina at once drove to the place, cut the body down and notified the Cor-oner, who ordered the remains to be taken to Pomona, where an inquest

among operators, with a rush of investors and prospectors to the oil seld, that exceeds anything yet witnessed in this territory, have been the marked features of the week. The steady rise in values continues. All operators are hurrying work ahead. CROPS ASSURED.

It is now evident that the rains of last week will make thousands of acres of the grain land of this section produce profitable crops, where loss previously stared the ranchers in the face. There will be plenty of hay and considerable grain. The large cabbage screage was also greatly helped, excepting some late varieties that threaten to run to seed, the crop is turning out strong, and will market far in advance of what was expected. Twenty-two dollars per ton is now being paid the growers, and delivery made as rapidly as possible.
